

API::APIValue::APIValue

```
graph LR; A[API::APIValue::APIValue] --> B[ScribbleCore::getVoidType]
```

A diagram showing a call from the `API::APIValue::APIValue` class to the `ScribbleCore::getVoidType` method. The source class is in a gray box, and the target method is in a white box, connected by a blue arrow.

ScribbleCore::getVoidType
